

The Pallet Quote Checklist

Two short lists: one for buying pallets, one for clearing old ones. Send the answers in one message and we will come back with a quote.

Buying pallets: what to have ready for a quote

- ☐ **Size:** 48x40, or your own dimensions.
- ☐ **Grade:** Grade A or Grade B.
- ☐ **Heat treated or not:** If a receiving requirement calls for treated stock, tell us before you order and we will confirm exactly what the stock carries.
- ☐ **How many:** A rough number is fine.
- ☐ **How often:** One time, weekly or monthly.
- ☐ **Where:** The delivery address or city.
- ☐ **When:** The date you need them by.

Stock pallets are delivered the same week in our area. Custom builds typically run one to two weeks.

Clearing old pallets: what to have ready for a pickup quote

- ☐ **Roughly how many:** A rough count is fine.
- ☐ **What sizes:** Standard 48x40, other sizes, or a mix.
- ☐ **What condition:** Good, broken, or a mix.
- ☐ **Where they are:** The pickup address or city.

Pallet pickup is a paid service, and we quote it first.
